[TAKE A LOOK AT OUR NEW WEBSITE](#)

Susan S. Miller, PhD, LPCS, NCC

specializes in counseling individuals with eating disorders and emotional eating, weight/obesity/body image issues, people in life transitions, those seeking career change, women in the many seasons of their lives, parenting teens and young adults. She has clinical expertise in the areas of depression and mood disorders, anxiety disorders such as OCD, social anxiety and panic, as well as grief, loss, trauma, and sexual abuse, chronic pain/illness and marital/couples therapy. With a 13 year background in educational testing and consulting, specializing in helping families who home school, Susan has developed an expertise in learning disabilities and ADHD. Dr. Miller also provides pre-surgical bariatric psychological evaluations for those seeking bariatric surgery for medical treatment due to obesity. Susan regularly offers group therapy in the areas of eating disorder recovery and emotional eating.

Dr. Miller has a warm, compassionate style of individual, family and group counseling, developing a treatment plan that will help bring about solutions, healing and restoration.

David Wiley, MS, LPC

areas of interest and expertise include: mood disorders such as anxiety, depression, bipolar, ADD/ADHD, relationship/premarital/marital counseling including a co-therapy option, stress/pain management, life transition issues especially with college students as well as older adults, and adolescent counseling. David specializes in working with males of all ages with eating disorders and families of loved ones with eating disorders. David offers compassionate care through a variety of strategies and techniques, including Cognitive Behavioral Therapy, Dialectical Behavior Therapy, biofeedback and Alpha-Stim technologies, Quitsmart smoking cessation, and others to move individuals/couples and families forward toward more helpful and healthy living.

Additionally, David is a research therapist, working with the Duke University Center for Spirituality, Theology, and Health. The purpose of the study is the exploration of the relationship of an individual's faith, along with counseling approach, and its effectiveness.

Beth M. Holloway, MA, LPC

is dedicated to working together with her clients to assess mental health needs as well as create and implement personal goals. She has a Master's Degree in Professional Counseling and Psychotherapy from Liberty University in Virginia. She received her undergraduate Bachelor's Degree in Psychology from North Carolina State University..

Beth has worked in the mental health field in the Wake County area since 1994, working with various agencies including women's sexual health, divorce recovery, social services and therapeutic foster care and adoption. Her passion is to promote renewed hope, self-efficacy and relational confidence.

She specializes in counseling individuals, couples and families who have experienced all types of losses, abuse, domestic strife and trauma. Beth leads group therapy in the areas of Dialectic Behavioral Therapy, Assertiveness Training, Parent/Child Relationships, Grief Processing and Depression Recovery.
